

Golf Cart Service & Maintenance Centre

(Updated: 24/11/2025)

Transparent Golf Cart Servicing – No Hidden Costs, Just Expert Care.

Keeping your golf cart running perfectly shouldn't be complicated. That's why our Service Centre offers clear, all-inclusive service packages with fixed pricing. The price you see is the price you pay—covering all necessary parts and expert labour. Whether you drive a new electric cart or rely on a classic petrol model, choose the package that fits your needs and enjoy peace of mind knowing your buggy is maintained to the highest standards by certified technicians.

Service Centre Rates

For specific repairs, customization, or non-package work, our standard labour rates apply.

Service Component	Price (€)	Notes
Standard Labour Rate (Per Hour)	€30	The fixed hourly rate for all non-packaged repair work.
Diagnostic Fee / Estimate Fee	€40	Charged to professionally diagnose a fault. This fee is waived if you proceed with the recommended repair.
Roadside Service / Call-Out Fee	€60 + Hourly Rate	Initial fee for mobile repair or cart pickup/delivery service (price based on distance).

Electric Cart Service Packages (All-Inclusive Pricing)

Our electric packages focus on battery health, charging efficiency, and drivetrain integrity for peak performance.

Package	All-Inclusive Price (€)	Key Inclusions Summary
1. Basic Annual Inspection	€125	Safety checks, chassis lubrication, basic battery care, and road test.
2. Comprehensive Electric Service (Detailed Inspection & Report)	€249	Includes all Basic Inspection items, plus full battery health report, detailed drivetrain and control inspection, formal condition report.

1. Basic Annual Inspection

All-Inclusive Price: €125

- **Safety & Control:** Full functionality check of steering, accelerator, and brake pedals. Check and adjust brake tension (minor adjustments included).
- **Suspension & Tires:** Check and adjust tire pressures. Visual inspection of tire tread. Lubricate all standard chassis grease points.
- **Battery & Charging:** Clean and coat battery terminals (anti-corrosion). Check water levels in lead-acid batteries and top up with distilled water. Visual check of charger plug/receptacle.
- **Lighting & Accessories:** Check operation of headlights, taillights, horn, and indicators.
- **Final Check:** Road test to verify basic speed and performance.

2. Comprehensive Electric Service (Detailed Inspection & Report)

All-Inclusive Price: €249

This in-depth inspection includes all items from the Basic Annual Inspection and adds rigorous checks suitable for any electric cart needing detailed maintenance, ensuring peak performance and documenting vehicle health.

- **I. Battery & Charging System Inspection:** Full battery pack and individual cell voltage test (or BMS status for Lithium). Terminal clean and coat. Comprehensive charging system and main wiring harness inspection.
- **II. Drivetrain & Controller Inspection:** Visual inspection of motor housing, differential fluid level, and check for leaks/noise. Controller and solenoid health check. Road test for speed and performance.
- **III. Steering, Suspension & Braking System:** Detailed inspection of all brake components, steering components (tie rods, bushings), leaf springs, and shocks. Tyre pressure and wheel nut torque check.
- **IV. Formal Report & Recommendations:** A detailed, written condition report is provided, outlining findings and any necessary repair quotes.

Petrol Cart Service Packages (All-Inclusive Pricing)

Our petrol services ensure your engine starts easily, runs smoothly, and maintains optimal power and efficiency.

Package	All-Inclusive Price (€)	Key Inclusions Summary
1. Basic Petrol Service	€155	New checks including battery and tyre report, oil/filter change, and detailed carburettor check.
2. Comprehensive Petrol Service (Full Tune-Up)	€269	Includes all Basic Petrol Service items, plus new filters, engine compression test, new carburettor, and basic valet.

1. Basic Petrol Service

All-Inclusive Price: €155

Essential maintenance for the core engine and drivetrain, ensuring reliability throughout the year.

- Engine Core: Engine Oil and Filter Replacement (Parts and labour included).
- Engine Checks: Check/Gap spark plug. Check engine belt tension.
- Fuel System: Detailed carburettor/fuel delivery check.
- Battery: Battery test & report.
- Safety & Controls: Basic safety checks & brake adjustment.
- Tyres: Tyre pressure test & set.
- Final Check: Road test.

2. Comprehensive Petrol Service (Full Tune-Up)

All-Inclusive Price: €269

The complete tune-up package includes all items from the Basic Petrol Service and adds replacement of critical wear components for maximum power, fuel efficiency, and longevity.

- Tune-Up Parts (New Parts Included): New Spark Plug, Air & Fuel Filters.
- Engine Health: Engine compression test.
- Fuel System: New carburettor replacement.
- Drivetrain: System inspection (Drive/Driven clutches/belts).
- Belts: Belts check & report.
- Vehicle Cleanliness: Basic Valet.
- Safety & Suspension: Full brake system check and adjustment. Detailed inspection of all steering components and suspension bushings.
